

NUSANTARA MARITIM SERVIS

COMPANY PROFILE

PT NUSANTARA MARITIM SERVIS

PT Nusantara Maritim Servis is an independent inspection and verification company specializing in document verification, technical inspection, and compliance assessment for import activities in Indonesia. The establishment of PT Nusantara Maritim Servis is based on June 5, 2013.

With over a decade of industry experience, NMS has earned a strong reputation as a trusted partner for importers, businesses, and regulatory stakeholders. Our mission is to ensure that every imported product complies with national regulations, technical standards and quality requirements, enabling safe, transparent, and efficient trade flows.

Backed by professional surveyors, disciplined operational systems, and internationally aligned methodologies, we deliver services that are precise, objective, and fully accountable.

PT Nusantara Maritim Servis is also supported by internationally recognized management and inspection systems, having obtained ISO 17020 accreditation from KAN for Independent Inspection Services, as well as ISO 27001 for Information Security Management Systems and ISO 9001 for Quality Management Systems. These certifications demonstrate our commitment to integrity, confidentiality, quality assurance, and operational excellence in every inspection and verification process.

Supported by a qualified and experienced team, we conduct every assignment with professionalism and accuracy. Our structured processes from document review to physical evaluation ensure reliable assessment that meet the highest standards of quality and compliance.

VISION

A Trusted and Independent Partner

MISSION

- Deliver accurate, reliable, and timely surveying, inspection and verification services.
- Uphold independence, objectivity, and integrity in all operations.
- Ensure full compliance with applicable national and international standards.
- Continuously enhance capabilities through human capital development and technology.

Our Services

VPTI (Verification of Import Documents and Technical Inspection) - On process

We provide comprehensive verification of import documents and technical requirements to ensure full regulatory compliance and smooth import processes.

TKDN Verification

We conduct accurate and accountable TKDN assessments in agreement with government standards, helping businesses meet domestic component regulations.

Agriculture Inspection

We perform inspection and compliance checks for agricultural imports to ensure product quality, safety, and adherence to regulatory requirements.

Commodities

Textile

Horticulture

Steel Iron

Downstream Plastic

Electronic

To support our inspection and verification services, NMS works with a wide range of imported products. This allows us to provide accurate checks and reliable results for each type of commodity handled.
